

Make Your property stand out from the rest!

With so many properties for sale or rental, you need to make yours stand out from the rest.

With a virtual tour Your property will make the biggest impact!

If you are renting a property, let people have a look around from anywhere with an internet connection.

With the advent of Broadband Internet connection, the *time is now* for Virtual Tours to become a realistic and **"Must Have"** tool for showcasing property, or landscapes, boat and car interiors, or literally anything that will benefit from a 360 degree view.

Using specialist 360 degree camera equipment, we take photographs of the property and produce a moving tour. This is then hosted on our servers with a unique web address e.g. www.virtual-view.com/yourname which you or your agent, with a simple link from their listing, can advertise.

Casares del Sol

Your chance to invest in this sun-drenched Resort Complex

This Tour is of a ground floor apartment and comprises:

- Living/dining room
- Kitchen
- Master bedroom with en-suite
- Second bedroom
- Bathroom

Please contact the Agent for further details

952 *** **

Sample Screen Shot

There are a variety of different skins to choose from.

The Tours are primarily designed as a web application, however we can supply them saved to a CD, giving the option of showing clients when no internet connection is available.

For Further information Contact us now:

www.virtual-view.com

info@virtual-view.com

We have customers throughout the World, but there is a strong growth in areas where Holiday Homes are being sold. This is due to the fact that people have very limited time to view property away from home, so to enable them to produce a shortlist, based on what they have seen via a Virtual Tour, means that any agent or private individual who commissions a tour is far more likely to make a sale.

The team that handles the construction of the Virtual Tours is well trained in the use of the required software, and can produce a professional looking tour for your customers usually within 48 hours of your order.

Pricing

Our pricing includes:

Travel to the property / location
